INTRODUCING THE NEW HUSQVARNA RIDER COLLECTION SERIES

Now you can achieve a tidy lawn without clippings while enjoying all the pleasures of driving a Husqvarna Rider. The new Rider Collection offers great performance, both in terms of excellent manoeuvrability and problem-free collection with superior capacity.

The powerful AC Tech™ auger transports the clippings without clogging and compacts it to fill the collector optimally.

With the push of a button you can switch from collection to mulching on the go.

The large collector is conveniently emptied with a push of this button.

The combination of a powerful auger compressing the grass, and a large-volume collector, is the secret behind the superior collecting capacity. The Rider Collection can hold twice the grass volume of a conventional collecting machine, so you can mow a larger area before it's time to empty collector.

The cutting deck on the Rider Collect has a special design with counter-rotating knives that efficiently cuts the grass and throws the clippings backwards to the auger. RC318T available with 103cm deck and RC310TSAWD with 112cm cutting width.

L RC318T

Innovative design offering effectiveness, efficiency and ease of use. Anti-clog collection system feeds from the front mounted deck to the collector.

DESIGNED BY THE WORLD LEADER IN ROBOTIC MOWING.

Intelligent navigation, mobile interaction and premium design make Automower® X-Line the number one choice for robotic lawn mowers. No matter the size of your lawn, the new X-Line series has an option for you. If your lawn has a lot of complexity, GPS assisted navigation helps deliver a perfectly lush, even finish. Need the ability to configure, control or track your mower? Automower® Connect does the job via your Smartphone. To top it off, the new X-Line design and LED headlights mean your mower will look as good as your lawn. When it's time to take your garden to the next level, visit HUSQVARNA.COM
