

Two-Stroke Oil Mix Guide

Use **ONLY** oil designed for air-cooled 2-stroke engines.
DO NOT USE marine oils or 2-stroke oils designed for water-cooled engines.

Refer to your product's user manual for clarification of these guidelines.

How do I mix my fuel at these ratios?

To mix at 50:1, use 100mL of oil in every 5L of petrol

To mix at 33:1, use 150mL of oil in every 5L of petrol

	Husqvarna Low Smoke Plus (LS+) semi-synthetic oil	Other brand oils
Chainsaws up to 60cc	50:1	33:1
Chainsaws above 60cc	33:1	33:1
Line trimmers and brushcutters	50:1	33:1
Hedge trimmers	50:1	33:1
Pole saws	50:1	33:1
Blowers and blower/vacs	50:1	33:1
Power cutters (concrete saws)	33:1	33:1
Other handheld equipment	50:1	33:1
