Husqvarna 325iR

The pro-grade quality and performance of this battery brushcutter effectively tackle thick grass and light brush in any weather. Its brushless E-torq motor has active cooling for maximum efficiency and is rear-mounted for optimal balance and motor protection. The ergonomic handle, digital UI, premium harness and soft grip handle increase comfort and convenience. Its included trimmer head, Combi Guard and metal grass blade ensure perfect results every time. Part of Husqvarna BLi-X 36V battery system.

User friendly keypad

We have thoughtfully designed our products with an easy to operate and use intuitive keypad. Ensuring you can optimise your time and the performance of your product with the simple touch of a button. Equipped with LED indicators showing battery status.

Battery Through Body Design (Pat. pend.)

The battery is placed horizontally through the machine to reduce the risk of dirt, water, chips and dust getting into the battery compartment, causing connector issues. Also, it enhances the weight distribution and balance of the tool, making it more user-friendly with increased maneuverability. The through body design also offers a high degree of flexibility since it allows battery packs of different sizes to be used.

Optimised shaft & gear

Optimised shaft length and 35 degree bevel gear facilitates operation and allows the cutting equipment working parallel to the ground.

Brushless E-TORQ Motor

The Husqvarna-developed E-TORQ motors are perfectly adapted for each application. The brushless design minimizes the number of moving parts and the motors are built to withstand tough, prolonged professional use. They are completely maintenance-free and will last for the product's whole lifespan.
