Machinery acclimatised to best serve NZ conditions

Designed and manufactured in New Zealand by Stevens Group - a third generation family business. From beginnings in mid-70's up to today, Stevens have been involved in engineering, manufacturing, and since the early 80's in the outdoor power equipment industry. This has developed a passion for machinery that makes grounds maintenance easy and enjoyable while achieving the best result in the shortest time.

1997 was a milestone for Stevens Group, as it saw their entry into green waste recycling industry. Already selling mowers to high-end lifestyle property, Stevens starts importing Italian made Chippers & Shredders. Ten years later they added a second portfolio of Chippers & Shredders to its range made in the USA.

Stevens has always believed that owing to NZ's climate - where you get a lot of leafy fibrous material that a chipper & shredder was superior to just plain chippers. However there was a gap in the market as all chippers & shredders manufactured overseas had two chutes for the material - one for the branches and one for the leafy green waste.

Stevens with their experience set out to manufacture the best Chipper & Shredder in the world, a unique design 'The perfect machine for chipping and shredding' with all green waste down one hopper in one pass!

ADVANTAGES

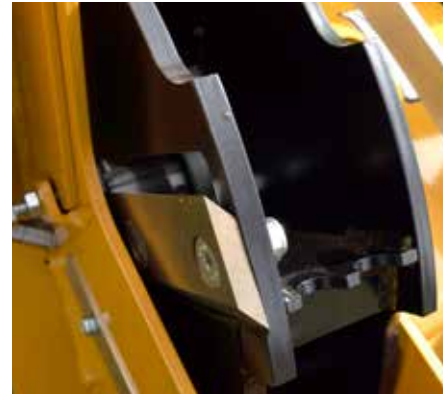

DIAMOND CHUTE

- Diamond-shaped and steeply angled feed chute for easy feeding of difficult materials.
- Single infeed chute for both chipping and shredding.

SHREDDER KNIVES

- Six double-edged shredder knives mulch green waste in the same chute.
- No separation of branch and foliage necessary.

CHIPPER BLADES

- Two blades cutting against a toughened anvil chip branches into small manageable sizes for faster composting.

ANGLED CHUTE

- Adjustable, raised output chute to direct your mulch to the wheelbarrow, trailer or garden bed.

DESIGNED SMARTER FOR EASE OF USE

LOW MAINTENANCE

- Double-edged chipper blades for extended life of wearable parts.
- Reversible chipping anvil with four usable edges is manufactured from tough abrasion and wear resistant steel for long life.

LOW MAINTENANCE

- Double-sided flail shredder knives for extended life of wearable parts.
- Reversible chipping knives are manufactured from long lasting hardened carbon steel.
- High performance, reliable Vanguard engines.

REDUCE RECYCLE

- Two fixed gates hold garden waste in the cutting chamber, producing finer mulch for greater volume reduction and faster composting.

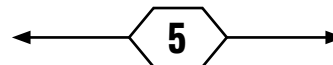

Large pneumatic wheels for easy movement and transport around the property

Chipped and Shredded = Finer Product

Fixed gate for consistent discharge control of fine mulch

FEATURES

LARGE CHUTE

- DESIGNED FOR SEAMLESS FLOW OF FEEDING MATERIAL.
- STEEP ANGLE FOR EASIER FEEDING.
- LESS EFFORT FEEDING COMPARED TO SQUARE SHAPED CHUTE.

QUALITY ENGINES

- GENUINE APPROVED ENGINES USED ON PETROL POWERED CHIPPER & SHREDDERS
- RELIABLE, COMMERCIAL QUALITY VANGUARD ENGINES

BUILT STRONG

BUILT STRONG FOR HIGH PERFORMANCE

DESIGNED FOR THE END USER

- EASY START TECHNOLOGY - USE LEVER TO ENGAGE THE ROTOR BELT DRIVE.
- THE SHREDDING KNIVES AND CUTTING BLADES REDUCE THE FEED MATERIAL BY SHREDDING AND CHIPPING AGAINST A HARDENED ANVIL.
- EASILY AND SAFELY OPEN THE HOUSING FOR SERVICING OR TO CLEAR BLOCKAGES.

EASY MOVEMENT

- LARGE, COMFORTABLE, INTEGRATED HANDLES FOR EASY MOVEMENT.

HIGH PERFORMANCE

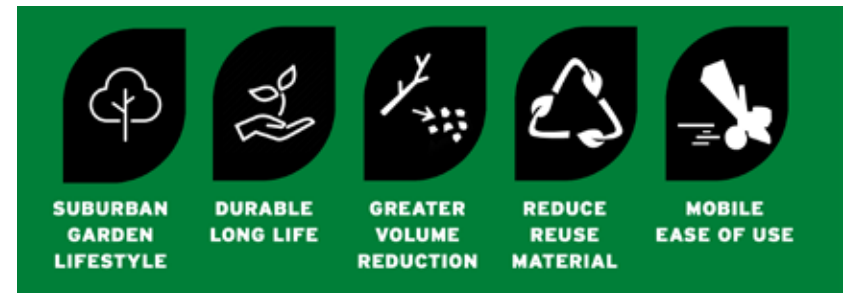

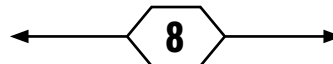

RANGE ENGINE-POWERED & PTO DRIVEN

RANGE STEVENS Chipper & Shredder

Today's Chipper & Shredder range is the result of years of testing, refinement, and customer feedback. We know you will find the Chipper & Shredder a very productive machine that's easy and enjoyable to use and quickly produces great mulch from a wide variety of trees and plants.

The shredded material is nice to handle and will compost quickly, retain moisture, control weeds and feed your garden.

ENGINE-POWERED

Reliable, commercial quality Vanguard petrol powered engines.

PTO-POWERED

Hitch this Chipper Shredder to your 540 RPM PTO and you will have a machine that has the same capabilities as the engine powered equivalent. Suits 18-40 hp tractors.

ENGINE-POWERED – 6.5 HP Vanguard Engine

MODEL 650 CHIPPER & SHREDDER

MODEL	STEVENS 650 CHIPPER & SHREDDER
Capabilities	2-in-1 Chipper Shredder
Chipper Capacity	70 mm Max Wood Diameter
Overall Dimensions	1165mm Length 1325mm Height 830mm Width
Infeed Chute Opening	390 mm x 390 mm
Chipper Blades	2 x Double Edge Tool Steel Blade
Shredder Knives	6 x Serrated Flail Blades
Feed System	Gravity / Self Feed
Drive System	1 x B section vee belt and clutch
Wheels	11" Pneumatic Wheels
Engine	Vanguard 203cc (6.5HP) 3,600 RPM

Chips branches up to 70mm

LIFESTYLE BLOCK

1300 MODELS - 13 HP

The 1300 Chipper & Shredder models are made for serious work.

Versatile, easy to use all-in-one chipper shredders that chip branches up to 90mm in diameter, and shred green waste to a fine mulch.

Large wheels and great balance for easy movement combined with loads of power for high production make this chipper shredder an outstanding performer. A well-balanced chipper shredder that can take care of tree, yard debris and green waste (hedge clippings, old plants and leaves).

Great for the large garden, lifestyle block or rental centre.

TURNTABLE KIT

Teaming up your Chipper & Shredder with a Walker Mower to create a ride-on Chipper Shredder saves even more work and eliminates the need to gather up shredded material – simply shred into the catcher and drive away!

Connect the Turntable Kit to the Walker Mower with the Draw Bar Kit and then simply rotate the Chipper & Shredder chute a quarter turn to collect the mulch in the Walker Mower GHS Catcher box.

- 1) Insert the catcher door into the Walker GHS Catcher box.
- 2) Rotate the Chipper Shredder a quarter turn and adjust the output chute height to the correct position.
- 3) Start collecting your garden waste for removal.

50 YEARS IN BUSINESS

CELEBRATING A MILESTONE

In 2023 Stevens Group marked their 50th anniversary. Stevens Group is a third-generation family-owned business. Founded in 1973 by Hayward and Brian Johnston, Stevens Group has over 50 years' experience in the industry, Manufacturing, Research & Development, Importing, Wholesale, and Retail - generations of experience at its core, and its on-site engineering facility.

Machinery acclimatised to best serve NZ conditions.

Stevens Group - import, manufacture, and distribute world leading machinery that is perfected for acclimatised performance to best serve the New Zealand Market.

Competitive Niche

Stevens Group continues the company's competitive niche of modifying and acclimatising equipment to ensure it works optimally in New Zealand conditions.

CUSTOMER FOCUSED

Darryll, Auckland

After comparing several chippers, we settled on the Chipper & Shredder. It's solidly built without being heavy and hard to manoeuvre. We use it on citrus and avocado prunings as well as barberry hedge trimmings. We mulch straight back onto plant bases. Its easily pushed around by hand or as we do, towed around behind our ride on

John, Orere Point

After looking around, came to the conclusion that the STEVENS Chipper & Shredder has some innovative features that others didn't, like the angled feed chute. It has exceeded our expectations...

Blair, Upper Hutt

It's an awesome piece of machinery!

Parts and Backup

Stevens Group parts facility is world-class and has 20,000+ different line items. Excellent in-house workshop facilities and manufacturing capability, aids the ability to act quickly and help the customer.

NZ-wide aftermarket service

Stevens Group is committed to providing clients with global standard equipment and comprehensive aftermarket service.

This range is proudly designed and manufactured by Stevens Group in a new purpose-built Auckland-based facility.

Our in-house production helps us stand apart from competitors. These machines are our own design developed over years of in-field testing.

Suitable for trees, yard debris, and green waste (hedge clippings, hardwoods, palm fronds, old plants, and leaves), the smaller Stevens chipper shredders are a versatile, easy-to-use machine that can chip branches up to 90mm in diameter and shred green waste to a fine mulch.
